EDUCATION

Electric Power University| https://epu.edu.vn
Engineer, Software Engineering, 2018

PROJECTS

Examination Website
An examination website with HTML, CSS, Javascripts and Jquery. Using data

from Mongodb.
https://github.com/b1team/examination-web

Simple CRUD website

A simple CRUD website with these controllers: create, read, update and delete account. Beside that, I also use pagination and sort for some field tables. This website uses HTML, CSS, Spring Boot, Spring MVC, Spring Data JPA, Thymeleaf, Spring Transactional, Hibernate, with Sql Server as database.
https://github.com/AnhTuPhi/java-crud

Simple Login System

A simple login system website using HTML, CSS, Spring Boot, Spring Data JPA, Hibernate, Thymeleaf, Spring Security, and Sql Server as database. In this website, I tried to authenticate account users and admin then using password decode to login account.
